BravoLT

Quality Assurance (QA) Analyst

Bravo LT needs you to be a part of our highly motivated group of technology experts. We share a passion for technology and the community we serve, and we are committed to building long-lasting, productive relationships. We focus on giving back to the community, positively impacting society, and providing quality solutions that work. We believe in autonomy, mastery and purpose and in trusting people to do the right thing - and we think Bravo LT is a pretty great place to be a part of.

The Bravo LT QA Analyst possesses a deep understanding of testing web applications, from the backend to the frontend. A strong foundation in testing tools, such as Selenium or Cucumber is strongly desired.

Responsibilities

- Work closely with the scrum master, developers, business analysts, and stakeholders in an Agile development environment
- Review user stories and requirements to provide timely and meaningful feedback
- Create detailed, comprehensive and well-structured test plans and test cases
- Estimate, prioritize, plan, and coordinate testing activities
- Design, develop and execute automation scripts using testing tools, such as Selenium or Cucumber
- Identify, record, document thoroughly and track issues
- Participate in Agile iterative development activities with development team

Skill Requirements

- Exceptional interpersonal communication skills
- Exceptional technical writing skills
- Strong aptitude in technical complexities
- Ability to create test scripts/plans
- Familiarity with the NUnit test framework and Selenium and/or Cucumber testing tools (desired, not required)
- Familiarity with open source languages like Java and Angular (desired, not required)

Experience Requirements

- At least 1 year of experience working on an agile software development project
- At least 2 years of experience working as a QA analyst

Education Requirements

- Bachelor's degree or equivalent experience required
- Certified Scrum Master (CSM), Certified Scrum Product Owner (CSPO), or Certified SAFe Agilist (desired, not required)
