BravoLT

Oracle APEX Engineer

What are you capable of achieving?

Bravo LT needs you to be a part of our highly motivated group of technology experts. We share a passion for technology and the community we serve, and we are committed to building long-lasting, productive relationships. We focus on giving back to the community, positively impacting society, and providing quality solutions that work. We believe in *autonomy*, *mastery* and *purpose* and in trusting people to do the right thing - and we think Bravo LT is a pretty great place to be a part of.

The Bravo LT engineer possesses a deep understanding of the analysis, design, implementation, testing, and maintenance of web applications, from the backend to the frontend. A strong foundation in computer science and the Oracle ecosystem is highly desired.

Desired Experience

- Translate business requirements and user stories into functional technical ecosystems
- Knowledge in software package installation, upgrading, change management and testing
- Strong designing, development and trouble shooting skills
- Working experience with the following technologies:
  - Oracle SQL, PL/SQL
  - Oracle APEX
  - Oracle database (10g and later)
  - JavaScript experience including JQuery
- Experience with common JavaScript libraries/frameworks (Angular or React)
- Experience with common application platforms and messaging technologies, such as Apache Tomcat
- Knowledge of cloud computing principles related to cloud technologies, such as Amazon Web Services (AWS)
- Experience with IT troubleshooting principles and techniques
- Experience working on a team utilizing Agile methodologies, including Scrum and/or SAFe

Basic Qualifications

- Bachelor's degree or master's degree in Computer Science or related field
- Three or more years of experience with Oracle databases and Oracle APEX
- Solid understanding of object-oriented software design and related patterns
- Experience with relational databases and SQL
- Understanding of modern software architecture, such as SOA, SOAP, and REST
- Strong interpersonal and communication skills and the ability to interact with a diverse group of clients and colleagues at a high degree of professionalism
- Able to manage time effectively
